

Microsoft Power Platform for Administrators 1 Day

WorkshopPLUS

Focus Area: Upgrade, Migration and Deployment

Duration: 1 Day

Difficulty: 300 - Advanced

Overview

Learn how to manage, secure and monitor Power Platform (Power Apps and Power Automate) in your organization and gain experience through hands-on exercise.

This training is targeted at Power Platform administrators and developers, that are having foundations of Microsoft Power Platform (Power Apps and Power Automate) and need to learn how to secure, manage and control the platform.

Objectives

After completing this training, students will be able to: Understand how to govern, secure and administer Microsoft Power Platform (Power Apps and Power Automate).

The mix is 40% PowerPoint and 60% administration and governance activities including best practices.

Key Takeaways

Course Material

- Most of the training is in a form of slides presentation, supported by a follow-along walkthrough lab exercises which are covering discussed topics.
- The student will take away many samples that can be reused back in their own company in addition to recommendations and best practices for each topic covered.
